Public Health

Year 1 — Bachelor of Dental Surgery

Reference and Resource List — Chapters 1 to 11

Supporting the MCQ, SBA, SAQ and flashcard question bank

BM Education FZE

Disclaimer

Questions in this bank were generated with the assistance of artificial intelligence and reviewed against the references listed. They are provided for educational revision only, are not a substitute for prescribed textbooks, clinical guidelines or supervised clinical training, and no warranty is given as to their accuracy or completeness.

References are presented in Vancouver style. Part 1 lists the core sources that apply across the whole subject; Part 2 lists, for each chapter, the relevant sections of those core texts together with additional chapter-specific reading. Numbers in square brackets in Part 2 refer to the numbered entries in Part 1.

PART 1 — CORE REFERENCES (ALL CHAPTERS)

1.1 Principal public health and preventive and social medicine texts

1. Park K. Park's Textbook of Preventive and Social Medicine. 28th ed. Jabalpur: Banarsidas Bhanot; 2025.
2. Donaldson LJ, Rutter P. Donaldsons' Essential Public Health. 4th ed. Boca Raton (FL): CRC Press; 2017.
3. Detels R, Abdool Karim Q, Baum F, Li L, Leyland AH, editors. Oxford Textbook of Global Public Health. 7th ed. Oxford: Oxford University Press; 2021.
4. Kawachi I, Lang I, Ricciardi W, editors. Oxford Handbook of Public Health Practice. 4th ed. Oxford: Oxford University Press; 2020.
5. White F, Stallones L, Last JM. Global Public Health: Ecological Foundations. New York: Oxford University Press; 2013.

1.2 Dental public health and community dentistry texts

6. Daly B, Batchelor P, Treasure E, Watt R. Essential Dental Public Health. 2nd ed. Oxford: Oxford University Press; 2013.
7. Mascarenhas AK, Okunseri C, Dye BA, editors. Burt and Eklund's Dentistry, Dental Practice, and the Community. 7th ed. St. Louis (MO): Elsevier; 2021.

Community Dentistry and Oral Epidemiology · Journal of Public Health Dentistry · Community Dental Health · British Dental Journal · Journal of Dental Research · Bulletin of the World Health Organization · The Lancet · The Lancet Public Health · Journal of Epidemiology and Community Health · International Dental Journal.

PART 2 — CHAPTER-SPECIFIC REFERENCES

Chapter 1 — Foundations of Public and Oral Health

1.1 What is health? · 1.2 Concepts of disease and illness · 1.3 What is public health? · 1.4 Introduction to oral and dental public health

Core texts: [1] opening chapters on the concept of health and disease and on the concept of prevention · [2] Ch. 1, Health in a changing world · [6] Part 1, on the nature and scope of dental public health · [3] Volume 1, The Scope of Public Health, on the development of the discipline · [30] the Cochrane evidence underpinning water fluoridation as a population measure

Chapter 2 — Determinants of Health and Disease

2.1 Determinants of health · 2.2 Social determinants and inequalities · 2.3 Determinants of oral health

Core texts: [22] the rainbow model of the determinants of health · [23] Parts 3-4, on daily living conditions and the inequitable distribution of power and resources · [24] the six policy objectives and the social gradient · [25] chapters on the social gradient, early life, work and social support · [1] the chapter on social sciences and health

Chapter 5 — Basics of Epidemiology and Community Surveys

5.1 Key terms · 5.2 Patterns of disease · 5.3 Community oral health surveys

Core texts: [11] the chapters on the dynamics of disease transmission and on measuring the occurrence of disease · [12] Ch. 2, Measuring health and disease, and Ch. 4, Types of study · [32] the sections on survey design, sampling and the assessment forms · [15] the entries for incidence, prevalence, morbidity, mortality and case fatality · [7] Ch. 14-17, on the measurement of caries, periodontal disease, oral cancer and edentulism · [8] the chapters on epidemiology, survey procedures and indices · [13] the chapters on frequency, risk and abnormality

- Broadbent JM, Thomson WM. For debate: problems with the DMF index pertinent to dental caries data analysis. Community Dent Oral Epidemiol. 2005;33(6):400-9.

Chapter 6 — Common Public Health Problems Relevant to Dentistry

6.1 Communicable diseases · 6.2 Non-communicable diseases · 6.3 Major oral health problems from a public health angle

Core texts: [1] the chapters on epidemiology of communicable diseases and of non-communicable diseases · [26] the common risk factor approach as the organising principle for this chapter · [31] the conditional and strong recommendations on free sugars intake · [33] the global burden estimates for caries, periodontal disease, tooth loss and oral cancer · [7] the chapters on the distribution and determinants of oral disease · [5] the chapters on the ecological basis of communicable and non-communicable disease · [35] the global burden and distribution of the major oral diseases

Scientific evidence on the links between periodontal diseases and diabetes: consensus report of the joint workshop by the International Diabetes Federation and the European Federation of Periodontology. J Clin Periodontol. 2018;45(2):138-49.

Chapter 7 — Environment, Occupational Health and Infection Control

7.1 Environmental health basics · 7.2 Oral health and the environment · 7.3 Infection control in the community and the clinic

Core texts: [42] the chapters on microbial and chemical aspects, including the guideline value for fluoride · [43] the recommended air quality levels and interim targets · [44] the five moments for hand hygiene and the evidence underlying them · [45] the eight core components and the facility-level recommendations · [46] the sections on personnel health, sterilisation and monitoring, and dental unit waterlines · [1] the chapters on environment and health and on occupational health

- Laheij AMGA, Kistler JO, Belibasakis GN, Valimaa H, de Soet JJ. Healthcare-associated viral and bacterial infections in dentistry. J Oral Microbiol. 2012;4:17659.

Chapter 8 — Health Systems and Primary Health Care

8.1 Introduction to health systems · 8.2 Primary health care · 8.3 Illustrative national examples

Core texts: [37] the definition of primary health care and the eight essential elements · [38] the renewed commitments and the place of primary health care in universal health coverage · [39] the six health system building blocks and the goals framework · [40] the chapters on raising resources, pooling and purchasing · [41] the fourteen levers for operationalising primary health care · [7] Ch. 3 access to care, Ch. 7 financing, Ch. 8 workforce
